- Jobsite observation reports with photo documentation
- Authorized Service Provider for DuPont 15-Year Transferable Product and Labor Warranty

RMS is an independently owned and operated consulting company providing specialized expertise and a range of services focused exclusively on the DuPont™ Tyvek® Weatherization System. Our goal is to ensure the DuPont™ Tyvek® system is properly detailed, procured, installed and executed per DuPont guidelines to help reduce water intrusion risks, keep jobsite production efficient, and create a durable building enclosure.

RMS can provide enhanced services as early as project design phase through installation and warranty execution. We are an **Authorized Service Provider** for the DuPont Building Knowledge Center Quality Assurance Program and the new DuPont **15-Year Transferable Product and Labor Warranty**. Our direct relationship with DuPont combined with our industry knowledge produces reliable solutions.

Whether you are constructing a single family home, a multifamily complex, or a commercial project, contact us for a free consultation. Minimize your risk and maximize your DuPont™ Tyvek® weather protection with RMS.

RMS Team Leads

Your projects will be managed by SVP of Risk Management, **Corey Ball**, based out of Dallas, TX. He is supported by **Mark Edds**, VP of Risk Management. Together, Corey and Mark have 40+ years of combined experience working with the DuPont™ Tyvek® weatherization system. **Korey Reed**, Staff Architect, handles architectural details, and all CAD / drafting requests.

RMS has a direct relationship with all Tyvek® distributors in North America and is an Authorized Provider for DuPont Tyvek design, specification, installation guidance and warranty registration services.
